

Hello, I was wondering if we could shorten the title a little bit to match “Installing On UEFI Hardware” like the article links to? — [TommyC](#) 2012/10/12 04:26

Hi. If you are talking about the long title that gets displayed in the [HOWTOs table](#), it reflects the first header of the article. If you shortened it, the title would automatically be adjusted there as well. That said, let's leave it for the author to decide. — [Marcin Herda](#) 2012/10/12 12:29

I know, that's why I decided to create the talk page in order to bring about the author to see it. — [TommyC](#) 2012/10/12 13:53

I shortened that first header. Should look better now.
