My nickname is JamesAxl, I am 30 years old, I am developer and network Admin, I used Gnu/Linux since the release of Mandrake 10.0, 1st time I use Slackware was 2009, but I was not interested about

it, I do not know why 🙂. I force myself to run a Gnu/Linux server in the company, so I trust on Slackware and I feel happy, I run it also as a main operating system At home, to do tests before bringing solutions to the Main server, I hope that I can help you here more, I want to put some tutos and some correction that I did.
