

# Slackjeff

Hello! My name is Jefferson Rocha, aka slackjeff. I am Brazilian and I use Slackware since 2008, then I have been actively contributing to the project Slackware indirectly.

## You can see how I contribute to Slackware and GNU/Linux:

- YouTube channel [Slackjeff](#), actively talking about Slackware.
- Unofficial Writer Documentation for Slackware.
- Creator of the team [SlackDocs Brasil](#).
- SlackCon Brasil Creator. A Slackware fest in Brazil, see: [slackcon](#)
- Maintainer some scripts [Slackbuilds](#).
- Telegram Group Administrator: [Slackware Show BR](#)
- Telegram Group Creator: [Slackware Linux Brasil](#)
- Moderator of Latin America's largest Linux forum [Viva o Linux](#)

## My hobbies

I have been using computers since 1999, as the main hoobie I love to program in (shell), recently I am trying to remove bashism from my life and use only the posix shell... Good, I'm trying.

I also like to create websites in the style of the 90/2000 no JS please. I'm in love with old technology 70/80/90/2000. Another hoobie is writing articles.

## Life and Style

Currently married to a future Slacker @Tati my **s2** and have a son 🤪🤪 I love simplicity and minimalism. I always try to follow these two steps. It's hard ... I know, but I started to delve into these topics thanks to Slackware and UNIX 😊.

- **Professional Contact:** [root@slackjeff.com.br](mailto:root@slackjeff.com.br)
- **Website:** [slackjeff.com.br](http://slackjeff.com.br)
- **ON Freenode:** [@slackjeff](#)
- **Telegram :** [@slackjeff](#)

I don't use Facebook, twitter and others spy platforms.

### Simplicity above all!
