

Install Fonts

AS ROOT:

1. Copy your font files (.ttf and/or .otf) to their **respective** directories:

```
/usr/share/fonts/TTF  
/usr/share/fonts/OTF
```

2. Run the following commands, with the directory where you copied the fonts as argument:

```
mkfontdir /usr/share/fonts/{TTF,OTF}  
mkfontscale /usr/share/fonts/{TTF,OTF}  
fc-cache -f -v
```

3. Restart X.
