Slackbuilds And SBo

Using slackbuilds.org git master branch with sbopkg

From

<http://www.linuxquestions.org/questions/slackware-14/slackware64-14-problems-with-compiling-packages-from-slackbuilds-org-4175429712/>

create a file `/etc/sbopkg/repos.d/80-slackbuilds-master.repo` with this content (one line)

slackbuilds master "Official git master from slackbuilds.org" custom git
`git:slackbuilds.org/slackbuilds.git@master ""` then, to have it selected as the default repository, edit the lines of `/etc/sbopkg/sbopkg.conf` with the variables `REPO_BRANCH` and `REPO_NAME`
`REPO_BRANCH=${REPO_BRANCH:-master} REPO_NAME=${REPO_NAME:-slackbuilds}` and do a `sbopkg -r` (to sync). For temporary usage `sbopkg -V slackbuilds/master -r sbopkg -V slackbuilds/master -i my_package_or_queue`
