

Hi, I am 43 years old and live in the Netherlands, I work for a telecommunications and ICT service provider as a field service engineer. My hobbies are playing with computers, photography (I recently got a Olympus Pen) and cycling. I have been been playing with Slackware since 2000, but since a year I fully switched to Slackware on my main computer. Sadly some services I require only work with that other OS so for that I use a virtual machine. I happily answer questions in English and Dutch. If you have a question you can mail me or leave a note in the discussion tab.
